**IMPORTANT NOTES:** These historical returns are based on the most recent, best and worst 10-year periods out of the last 20 years for the Index. The best and worst returns for the Index may differ from the best and worst returns for the Indexed Account due to the application of credited rates and flooring negative returns at zero. This may lead to the indexed account performance in the best 10-year period of the Index having lower returns than the indexed account performance in the last or worst 10-year period of the Index itself.

1. Participation or Cap Rate shown is for contracts with 10-year surrender charge schedule and no income rider. Cap and participation rates are set at the beginning of each segment, guaranteed only for the duration of each segment and may change for future segments.
2. Annual return rate is gross of annual strategy fee (for accounts with enhanced participation rate). 10-year compounded annual rates of return assume a specified returns scenario showing the most recent 10 years' index performance or the best or worst continuous 10 years in the last 20. Historical performance is not indicative of future results and actual experience will differ from these values.
3. The Smart Passage SG Index was launched in 2019. Therefore, the information in this chart and in illustrations or other hypothetical examples is based on hypothetical data using historical backcasting. This index applies the Sunrise Crediting Method which may result in the account under performing other indexed accounts if the growth is concentrated in one or two months. See the Indexed Account Supplement for more information.
4. Annual strategy fee is currently equal to 1.00% of account value. Fees are set at the beginning of each segment, guaranteed only for the duration of each segment and may change for future segments.

## OUR CORE VALUES

We get things done

We are supercharging our legacy

We are committed to our customers

Day in and day out, we work hard to be your carrier of choice

This material is provided by Nassau Life and Annuity Company, which issues the annuity described in this document. This material is for informational and educational purposes and are not designed, nor intended, to be applicable to any person's individual circumstances. It should not be considered as investment advice, nor does it constitute a recommendation that anyone engage in (or refrain from) a particular course of action.

Product features, rider options and availability may vary by state.

Lifetime payments and guarantees are based on the claims-paying ability of Nassau Life and Annuity Company.

Annuities are long-term products particularly suitable for retirement assets. Annuities held within qualified plans do not provide any additional tax benefit. Early withdrawals may be subject to surrender charges. Withdrawals are subject to ordinary income tax, and if taken prior to age 59½, a 10% IRS penalty may also apply.

Interest rates, participation rates, caps and strategy fees are subject to change.

While the value of each indexed account is affected by the value of an outside index, the contract does not directly participate in any stock, bond or equity investment. Index credits greater than zero are not guaranteed in any given year and it is possible for the strategy fees associated with the enhanced participation rate crediting options to exceed the index credits in poor performing markets, resulting in a loss of principal. Index credits are treated as a gain for tax purposes. Availability of indexed accounts is subject to change at any time in our sole discretion and are only guaranteed to be available for the current segment.

The values shown herein are meant to highlight the features of Nassau Growth Annuity only.

The Smart Passage SG Index (the "Index") is the exclusive property of SG Americas Securities, LLC (SG Americas Securities, LLC, together with its affiliates, "SG"). SG has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) ("S&P") to maintain and calculate the Index. "SG Americas Securities, LLC", "SGAS", "Société Générale", "SG", "Société Générale Indices", "SGI", and "Smart Passage SG Index" (collectively, the "SG Marks") are trademarks or service marks of SG. SG has licensed use of the SG Marks to Nassau Life and Annuity Company ("NLA") for use in a fixed indexed annuity offered by NLA (the "Fixed Indexed Annuity"). SG's sole contractual relationship with NLA is to license the Index and the SG Marks to NLA. None of SG, S&P or other third party licensor (collectively, the "Index Parties") to SG is acting, or has been authorized to act, as an agent of NLA or has in any way sponsored, promoted, solicited, negotiated, endorsed, offered, sold, issued, supported, structured or priced any Fixed Indexed Annuity or provided investment advice to NLA.

No Index Party has passed on the legality or suitability of, or the accuracy or adequacy of the descriptions and disclosures relating to, the Fixed Indexed Annuity, including those disclosures with respect to the Index. The Index Parties make no representation whatsoever, whether express or implied, as to the advisability of purchasing, selling or holding any product linked to the Index, including the Fixed Indexed Annuity, or the ability of the Index to meet its stated objectives, including meeting its target volatility. The Index Parties have no obligation to, and will not, take the needs of NLA or any annuitant into consideration in determining, composing or calculating the Index. The selection of the Index as a crediting option under a Fixed Indexed Annuity does not obligate NLA or SG to invest annuity payments in the components of the Index.

THE INDEX PARTIES MAKE NO REPRESENTATION OR WARRANTY WHATSOEVER, WHETHER EXPRESS OR IMPLIED, AND HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES (INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE), WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN OR RELATING THERETO, AND IN PARTICULAR DISCLAIM ANY GUARANTEE OR WARRANTY EITHER AS TO THE QUALITY, ACCURACY, TIMELINESS AND/OR COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN, THE RESULTS OBTAINED FROM THE USE OF THE INDEX AND/OR THE CALCULATION OR COMPOSITION OF THE INDEX, OR CALCULATIONS MADE WITH RESPECT TO ANY FIXED INDEXED ANNUITY AT ANY PARTICULAR TIME ON ANY PARTICULAR DATE OR OTHERWISE. THE INDEX PARTIES SHALL NOT BE LIABLE (WHETHER IN NEGLIGENCE OR OTHERWISE) TO ANY PERSON FOR ANY ERROR OR OMISSION IN THE INDEX OR IN THE CALCULATION OF THE INDEX, AND THE INDEX PARTIES ARE UNDER NO OBLIGATION TO ADVISE ANY PERSON OF ANY ERROR THEREIN, OR FOR ANY INTERRUPTION IN THE CALCULATION OF THE INDEX. NO INDEX PARTY SHALL HAVE ANY LIABILITY TO ANY PARTY FOR ANY ACT OR FAILURE TO ACT BY THE INDEX PARTIES IN CONNECTION WITH THE DETERMINATION, ADJUSTMENT OR MAINTENANCE OF THE INDEX. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL AN INDEX PARTY HAVE ANY LIABILITY FOR ANY DIRECT DAMAGES, LOST PROFITS OR SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No Index Party is a fiduciary or agent of any purchaser, seller or holder of a Fixed Indexed Annuity. None of SG, S&P or any third party licensor shall have any liability with respect to the Fixed Indexed Annuity in which an interest crediting option is based is on the Index, nor for any loss relating to the Fixed Indexed Annuity, whether arising directly or indirectly from the use of the Index, its methodology, any SG Mark or otherwise. Obligations to make payments under the Fixed Indexed Annuities are solely the obligation of NLA.

In calculating the performance of the Index, SG deducts a maintenance fee of 0.50% per annum on the level of the Index, and fixed transaction and replication costs, each calculated and deducted on a daily basis. Because the Index can experience potential leverage up to 350%, the maintenance fee may be as high as 1.75% per year. The transaction and replication costs cover, among other things, rebalancing and replication costs. The total amount of transaction and replication costs is not predictable and will depend on a number of factors, including the performance of the index underlying the Index, and market conditions, among other factors. These fees and costs will reduce the potential positive change in the Index and increase the potential negative change in the Index. While the volatility control applied by the Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls.
